EXPERIENCE

Trivia Quest, Colombia — Django Developer

Dec 2023 - Jan 2024

In my role as a developer at Trivia Quest, I led the development and launch of an innovative project that seamlessly integrates intellectual challenges with engaging features. My main duties involved creating a distinctive experience by implementing captivating questions using technologies like Django, JavaScript, HTML, CSS, and PostgreSQL for the database.

Moral Games , Colombia — Django Developer

Aug 2023 - Dec 2023

I developed Moral Games Web, a video game store, leveraging the powerful Django framework. This endeavor marked a full-fledged journey from concept to execution, sculpting a cohesive platform. It encompasses vital functionalities such as user authentication, purchase tracking, cart management, simulated payment gateway, and additional features.

Your MP3, Colombia — Django Developer

Jan 2024

I built YourMP3, a Django project hosted on Heroku, facilitating the downloading of MP3 files from YouTube videos via URL. Within the codebase, the project converts the videos into MP3 format before sending an HTTP response to the browser.

EDUCATION

Corporación Universitaria Latinoamericana, Colombia, Barranquilla — Computer Systems Engineering

Jan 2023 - PRESENT

PROJECTS

URL SHORTENER

I spearheaded the development of a resilient URL shortening API, showcasing proficiency in scalable solutions, backend architecture, API design, validation, and testing, all within the Rails framework.
