Profile

I'm Sebastian. a dedicated Python enthusiast with a strong passion for harnessing the full power of Django. My education and hands-on experience have fortified my expertise. Currently pursuing Computer and Systems Engineering, I dive deep into technology intricacies, honing my skills. Crafting solutions that maximize Django's capabilities is where I find joy, showcasing my commitment to innovative and robust programming.

Experience

Dec 2023 - PRES	Trivia Quest	Django Developer
I developed Moral Games Web, a video game store, using the robust Django framework. This project was a deep dive into creating a complete platform, from conceptualization to implementation. The platform includes key features such as user authentication, purchase history, shopping cart, simulated payment gateway, and more.		
Aug 2023 - PRES	Moral Games	Django Developer
In my role as a developer at Trivia Quest, I have led the exciting creation and deployment of a unique project that merges intellectual challenges with captivating options. My key responsibilities included developing a unique experience through the implementation of intriguing questions using technologies such as Django, JavaScript, HTML, CSS, and PostgreSQL for the database.		

Education

2023 - Present	Computer Systems	Corporación Universitaria Latinoamericana
